Our Mission

The purpose of the Latino Business Association Foundation (LBAF) is to act as a bridge to higher education for low-income Latino young adults. In 2019, the LBAF awarded approximately \$12,000 in scholarships and grants and well over \$725,00 in total since the inception of this organization. These awarded scholarships have benefited young adults attending various educational institutions such as UC Berkley, UC Merced, UC Davis, San Francisco State, Stanislaus State and Modesto Junior College to mention a few.

The Latino Business Association Foundation is not just about scholarships but also supporting other causes, events, and programs that have a positive effect on our community. The LBAF has provided financial support in the form of small grants to local non-profit organizations, local schools, and other programs that provide educational enrichment to the youth in our community.
